

Technical drawing of a mechanical component, likely a pump or motor, showing a side view. The component consists of a main body with a flange on the left, a central cylindrical section, and a shaft extending to the right. The drawing is a line drawing with no shading.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor assembly, showing a side view. The component consists of a main body with a flange on the left, a central shaft, and a smaller cylindrical section on the right. The drawing is a line drawing with no shading.

Schaft 40

Technical drawing of a mechanical assembly, likely a pump or motor, showing a side view. The assembly consists of a main cylindrical body with a flange at the right end. A smaller cylindrical component is attached to the left side of the main body. The drawing is a line drawing with no shading.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor, showing a side view. The component features a large rectangular housing on the left, a central cylindrical section with a flange, and a smaller cylindrical section on the right with a protruding shaft.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor assembly, showing a side view. The component consists of a cylindrical body with a flange at one end and a mounting bracket at the other. The drawing is a line drawing with no shading.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor, showing a side view. The component features a large rectangular body on the left, a central cylindrical section, and a smaller cylindrical section on the right. A flange is visible on the right side of the central section. A small, rectangular component is attached to the top of the large rectangular body. The drawing is a line drawing with no shading.

Schaft 40

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor, showing a side view. The component features a large rectangular body on the left, a central cylindrical section with a flange, and a smaller cylindrical section on the right with a protruding shaft.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor, showing a side view. The component consists of a cylindrical body with a flange at one end and a mounting bracket at the other. The drawing is a line drawing with no shading.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor assembly, showing a side view with a flange and a shaft.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor, showing a side view. The component features a cylindrical body with a flange at the front and a shaft extending from the back. The drawing is a line art representation with no shading.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor, showing a side view. The component features a large rectangular body on the left, a central cylindrical section with a flange, and a smaller cylindrical section on the right with a protruding shaft.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor, showing a side view. The component consists of a main body with a flange on the left, a central shaft, and a smaller cylindrical section on the right. The drawing is a line drawing with no shading.

Schaft 40

Technical drawing of a mechanical component, likely a pump or motor, showing a side view. The component features a cylindrical body with a flange on the left side and a shaft extending from the right side. The drawing is a line art representation with no shading.
