

Schaft 40

The drawing shows a cross-section of a mechanical assembly. On the left, a large, solid rectangular block represents a pulley or a housing. A shaft passes through the center of this block. The shaft has a keyway cut into it, and a key is seated within this keyway. The shaft continues to the right of the pulley block, where it has a flange or a change in diameter. The drawing is a technical sketch, likely for a design or manufacturing purpose, showing the internal components and their assembly.

Schaft 40

Technical drawing of a mechanical assembly, showing a cross-section of a component with a central shaft and a flange.

Schaft 40

Technical drawing of a mechanical assembly. It shows a cross-section of a shaft with a pulley on the left and a pin on the right. The shaft has a central hole. The pulley has a V-shaped groove on its outer rim. The pin is a small cylindrical component with a flange on one end. The drawing is a line drawing with no shading.

Schaft 40

Technical drawing of a mechanical assembly, showing a cross-section of a shaft with a flange and a pin.

Schaft 40

The drawing shows a cross-section of a mechanical assembly. On the left, a large rectangular block represents a pulley or a housing. A shaft passes through the center of this block. The shaft has a keyway cut into it, and a key is seated within this keyway. The shaft continues to the right, passing through a smaller, cylindrical component that appears to be a bearing or a bush. The shaft ends with a small, pointed tip on the right side. The drawing is a technical sketch, likely for a design or manufacturing purpose.

Schaft 40

Technical drawing of a mechanical assembly, showing a cross-section of a component with a central shaft and a flange.

Schaft 40

The drawing shows a cross-section of a mechanical assembly. On the left is a large rectangular block. A shaft passes through it, with a pulley (a circular disk with a central hub) mounted on it. The shaft continues to the right, passing through a smaller cylindrical component, and ends with a pin or bolt. The drawing is a technical sketch, likely for a patent application, showing the internal structure of the assembly.

Schaft 40

Technical drawing of a mechanical assembly, showing a cross-section of a shaft with a flange and a pin.

Schaft 40

Schaft 40

A technical drawing of a mechanical part, likely a shaft or pin, shown in a cross-sectional view. The part has a central hole and a flange on the right side. The drawing is a simple line drawing with no shading or texture.

Schaft 40

Schaft 40

A technical drawing of a mechanical assembly in perspective view. The assembly consists of a large rectangular block on the left, a central cylindrical component with a flange, and a smaller cylindrical component on the right. A small pin or screw is visible at the end of the rightmost component.

Schaft 40

Schaft 40

Schaft 40

Technical drawing of a mechanical assembly, showing a cross-section of a shaft with a pulley and a coupling.
