

MS16/MS22

MS16/MS22

Technical drawing of a 3/2-way solenoid valve, view 1 (top view). The drawing shows the valve body with a solenoid coil on top. The coil is labeled 'Solenoid' and '12VDC'. The valve has two main ports on the left and one on the right. The right port is a larger, threaded connection. The left side has two smaller ports, one of which is a threaded connection. The drawing is a line drawing with no shading.

MS16/MS22

Technical drawing of a 3/2-way solenoid valve, view 1 (top view). The drawing shows the valve body with a solenoid coil on top. The coil is labeled '12VDC 1.5A'. The valve has a 1/2" NPT inlet on the left and a 1/2" NPT outlet on the right. There are two 1/4" NPT ports on the bottom. The drawing is a line drawing with dimensions in inches.

MS16/MS22

Technical drawing of a 3/2-way solenoid valve, view 1 (top view). The drawing shows the valve body with a solenoid coil on top. The coil is labeled 'SOL-12VDC' and '12VDC'. The valve has a 1/2" NPT inlet on the left and a 1/2" NPT outlet on the right. The drawing is labeled '1' in the bottom right corner.

MS16/MS22

MS16/MS22

Technical drawing of a 3/2-way solenoid valve, view 1 (top view). The drawing shows the valve body with a solenoid coil on top. The coil is labeled 'SOL-1000'. The valve has a 1/2" NPT inlet on the left and a 1/2" NPT outlet on the right. There are two 1/4" NPT ports on the bottom. The drawing is a line drawing with dimensions in inches.
