Figure 1 shows a technical drawing of a cylindrical component, likely a part of a mechanical assembly. It features a central longitudinal slot and several radial slots or grooves around its circumference. The drawing is a perspective view, showing the internal structure and the external profile of the cylinder.

A technical drawing of a cylindrical component, likely a part of a machine. It features a central longitudinal slot running through its length. One end of the cylinder is flanged, with a series of radial ribs or spokes connecting the outer rim to the central slot. The drawing is a perspective view, showing the three-dimensional shape of the part.
