

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank. The drawing is a black and white line art illustration.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank. The drawing is a black and white line art illustration.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank of the bolt. The drawing is a simple black and white line art, showing the geometric shapes of the components.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with its hexagonal head on the left and threaded shank extending to the right. A hexagonal nut is threaded onto the bolt, positioned between the bolt head and the right end of the shank. The drawing uses clean, black lines on a white background to illustrate the mechanical components.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank. The drawing is a black and white line art illustration.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank, and a washer is placed between the nut and the bolt head. The drawing is a black and white line art illustration.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank of the bolt. The drawing is a simple line art representation, showing the geometry of the components without shading or texture.

WFB 32-20

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank. The drawing is a black and white line art illustration.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank. The drawing is a black and white line art illustration.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank of the bolt. The drawing is a black and white line art illustration.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank. The drawing is a black and white line art illustration.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the shank. The drawing is a black and white line art illustration.

WFB 32-20

A technical line drawing of a bolt and nut assembly. The bolt is shown in a perspective view, with a hexagonal head and a threaded shank. A nut is threaded onto the bolt, and a washer is placed between the nut and the bolt head. The drawing is a simple line art representation, showing the geometry of the components.

WFB 32-20

A technical line drawing of a Tee fitting. The fitting has a horizontal inlet/outlet on the left and a vertical inlet/outlet on the right. Both ports are threaded with 1/2 inch NPT (National Pipe Thread). The fitting is shown in a perspective view, highlighting its hexagonal body and the flared ends of the ports.
