

VDI 30

A technical drawing of a square plate with a central circular hole. A threaded rod is shown passing through the hole, with the threads visible on the right side of the plate.

VDI 30

A technical drawing of a square plate with a central circular hole. A threaded rod is shown passing through the hole, with its threads visible on the right side. The plate has a raised edge on the right side.

VDI 30

A technical drawing of a square plate with a central hole. A threaded rod is shown passing through the hole from the right side. The plate has a square shape with a central circular hole. The rod is threaded and has a hexagonal head on the right side.

VDI 30

VDI 30

A technical drawing of a square plate with a central circular hole. A threaded rod is shown passing through the hole, with the threads visible on the right side of the plate.

VDI 30

VDI 30

A technical drawing of a square plate with a central circular hole. A threaded rod is shown passing through the hole from the right side. The drawing is a line drawing with no shading.

VDI 30

VDI 30

VDI 30

A technical drawing of a square nut. It is a square block with a hexagonal hole in the center. The hole has a small circular center. One side of the nut is threaded, showing a series of parallel lines representing the threads.

VDI 30

A technical drawing of a square plate with a central hole. A threaded rod is shown passing through the hole from the right side. The plate has a square shape with a central circular hole. The rod is threaded and has a hexagonal base on the right side.

VDI 30

A technical drawing of a square plate with a central hole. A threaded rod is shown passing through the hole, with a nut and washer on the other side. The drawing is a perspective view showing the front and side of the assembly.

VDI 30

A technical drawing of a square plate with a central hole. A threaded rod is shown passing through the hole, with the threads visible on the right side. The drawing is a perspective view.

VDI 30

A technical drawing of a square plate with a central circular hole. A threaded rod is shown passing through the hole, with its threads visible on the right side. The drawing is a perspective view showing the top and side of the plate.
