

A technical drawing of a bolt, showing a hexagonal head and a threaded shank. The drawing is a perspective view, showing the bolt from an angle. The head is hexagonal, and the shank is cylindrical with a threaded section. The drawing is a line drawing, with no shading or color.

VDI 40

A technical drawing of a bolt, showing a hexagonal head and a threaded shank. The drawing is a perspective view, highlighting the hexagonal shape of the head and the cylindrical form of the shank with its threads.

VDI 40

A technical drawing of a bolt, showing a hexagonal head and a threaded shank. The drawing is a perspective view, highlighting the bolt's geometry and thread pattern.

VDI 40

A technical line drawing of a bolt. It features a hexagonal head with a central circular hole. The head is connected to a cylindrical shank that has a threaded section at the end. The drawing is a perspective view, showing the three-dimensional shape of the bolt.

VDI 40

A technical drawing of a bolt, showing a hexagonal head and a threaded shank. The drawing is a perspective view, highlighting the bolt's geometry and thread pattern.

VDI 40

A technical line drawing of a bolt. It features a hexagonal head with a central circular hole. The head is connected to a cylindrical shank that has a threaded section at the end. The drawing is a perspective view, showing the three-dimensional shape of the bolt.

VDI 40

A technical line drawing of a bolt. It features a hexagonal head on the left and a cylindrical shank on the right. The shank is threaded with a standard double-flute thread. The drawing is shown in a perspective view, highlighting the three-dimensional shape of the fastener.

VDI 40

A technical drawing of a bolt, showing a hexagonal head and a threaded shank. The drawing is a perspective view, highlighting the bolt's geometry and thread pattern.
