

VDI 30

A technical drawing of a bolt, showing a hexagonal head and a threaded shank. The bolt is oriented horizontally, with the head on the left and the shank extending to the right. The head is a regular hexagon, and the shank has a series of parallel lines indicating the threads.

VDI 30

A technical line drawing of a bolt. It features a hexagonal head on the left, a smooth cylindrical shank in the middle, and a threaded section on the right. The drawing is a perspective view, showing the three-dimensional shape of the fastener.

VDI 30

VDI 30

A technical line drawing of a bolt. It features a hexagonal head on the left, a smooth cylindrical shank in the middle, and a threaded section on the right. The drawing is a perspective view, showing the three-dimensional shape of the fastener.

A technical drawing of a bolt, showing a hexagonal head and a threaded shank. The bolt is oriented horizontally, with the head on the left and the shank extending to the right. The head is a regular hexagon, and the shank has a series of parallel lines indicating the threads.

VDI 30

A technical line drawing of a bolt. It features a hexagonal head on the left, a smooth cylindrical shank in the middle, and a threaded section on the right. The drawing is a perspective view, showing the three-dimensional shape of the bolt.

VDI 30

VDI 30

A technical drawing of a bolt, showing a hexagonal head and a threaded shank. The bolt is oriented horizontally, with the head on the left and the shank extending to the right. The head is a regular hexagon, and the shank has a standard thread pattern.

VDI 30

A technical line drawing of a bolt. It features a hexagonal head on the left, a smooth cylindrical shank in the middle, and a threaded section on the right. The drawing is a perspective view, showing the three-dimensional shape of the fastener.

VDI 30

VDI 30

A technical line drawing of a bolt. It features a hexagonal head on the left, a smooth cylindrical neck in the middle, and a threaded shank on the right. The drawing is a perspective view, showing the three-dimensional shape of the fastener.

VDI 30

VDI 30

A technical line drawing of a bolt. It features a hexagonal head with a flat top surface and a central hole. The shank is cylindrical and has a threaded section with visible threads. The drawing is a perspective view, showing the bolt from an angle.

VDI 30

A technical line drawing of a bolt. It features a hexagonal head on the left, a smooth cylindrical shank in the middle, and a threaded shank on the right. The drawing is a perspective view, showing the three-dimensional shape of the bolt.

VDI 30

A technical line drawing of a bolt. It features a hexagonal head with a flat top surface and a central hole. The shank is cylindrical and has a threaded section with a standard double-flute thread profile. The drawing is shown from an isometric perspective.
