A technical line drawing of a mechanical component, likely a valve or actuator. It features a main cylindrical body with a larger diameter section on the left that has a flat circular face. A smaller diameter section extends from the right. On the side of the smaller section, there is a small, angled port with internal threads. The drawing uses perspective and includes hidden lines to show the internal structure.

1"

A technical line drawing of a mechanical part. It consists of a main cylindrical body with a larger diameter section at one end, forming a flange. On the side of the smaller diameter section, there is a small, threaded protrusion or plug. The drawing uses simple black lines on a white background to represent the geometry.
