

A technical line drawing of a mechanical component, possibly a valve or actuator. It features a complex, multi-faceted design with several circular ports or mounting points. A prominent feature is a large, circular, flanged port on the left side. The component has a series of rectangular and cylindrical protrusions and recesses, suggesting a complex internal mechanism. The drawing is a perspective view, showing the top, front, and side of the component.

KPS 45

Technical drawing of a mechanical component, likely a bracket or support, showing multiple views (front, side, top, and bottom) with dimensions and a title block.
