

A technical drawing of a pulley, showing a circular flange with a central hole for a shaft. The drawing is a perspective view, showing the top and side of the pulley. The flange has a series of concentric circles, indicating a stepped or flanged design. The central hole is circular and appears to be a standard shaft hole.

WFB 32-20

A technical drawing of a bolt head and nut assembly. The bolt head is shown in the foreground, featuring a hexagonal shape with a central circular hole. The nut is positioned behind the bolt head, showing its hexagonal shape and the internal threads. The drawing is a line drawing with no shading.

WFB 32-20

A technical drawing of a pulley, showing a circular face with a central hole for a shaft and a V-shaped groove on its outer rim for a belt.

WFB 32-20

WFB 32-20

A technical drawing of a pulley, showing a circular flange with a central hole for a shaft. The drawing is a perspective view, showing the top and side of the pulley. The flange has a flat top surface and a slightly raised rim. The central hole is circular and has a smooth, rounded edge. The pulley is shown in a perspective view, with the top surface and the side of the flange visible. The drawing is a line drawing, with no shading or color.

WFB 32-20

A technical line drawing of a bolt head and nut assembly. The bolt head is on the left, showing a hexagonal shape with a central circular hole. The nut is on the right, showing a hexagonal shape with a central circular hole. The drawing is a perspective view, showing the three-dimensional nature of the components.

WFB 32-20

WFB 32-20

Technical drawing of a 1/2 inch NPT female fitting with a 1.5 inch diameter flange. The drawing shows a side view of the fitting, which has a flange with a diameter of 1.5 inches and a threaded section with a diameter of 1/2 inch.

WFB 32-20

A technical drawing of a pulley, showing a circular flange with a central hole for a shaft. The drawing is a perspective view, showing the top and side of the pulley. The flange has a series of concentric circles, and the central hole is a smaller circle in the center.

WFB 32-20

A technical drawing of a bolt head and nut assembly. The bolt head is shown on the left, featuring a hexagonal shape with a central circular hole. The nut is shown on the right, with a hexagonal shape and a central circular hole. The drawing is a line drawing with no shading.

WFB 32-20

A technical line drawing of a bolt head and nut assembly. The bolt head is on the left, showing a hexagonal shape with a central circular hole. The nut is on the right, showing a hexagonal shape with a central circular hole. The drawing is a perspective view, showing the three-dimensional nature of the components.

WFB 32-20

A technical drawing of a 1/2 inch NPT female plug. It features a large circular flange with a 1/2 inch diameter, a central threaded hole, and a smaller threaded port on the side.
