

## Cable

### Technical data

|                            |                                       |
|----------------------------|---------------------------------------|
| Electrical assemblies      | Electr. assembly lines                |
| Length                     | 5000 Millimeter                       |
| Cross-section              | 2.5 Square millimeter                 |
| Number of wires/poles (ST) | 4 Piece                               |
| Voltage                    | 600 Volt                              |
| Plug connection/type       | M23 (size 1 / encoder)<br>OG - orange |
| Shield                     | yes - shielded                        |
| Insulating material        | PUR                                   |
