

Mounting Aid TOOLFIX

Mounting tools safely and comfortably

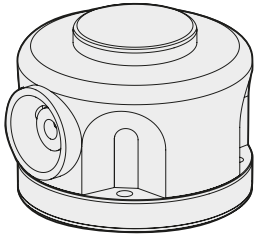

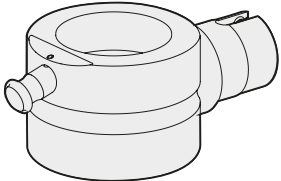

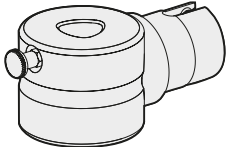

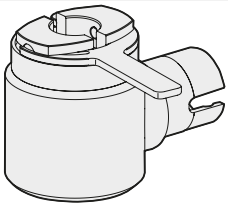

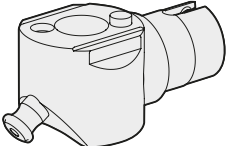

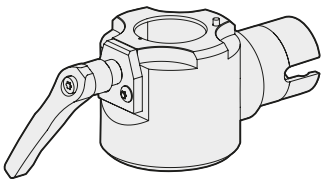

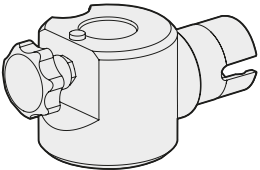

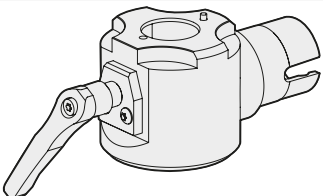

With our TOOLFIX mounting aid, mounting tools in a tool holder becomes as easy as child's play.

Numerous tool adapters make the base body a universal tool for safe and damage-free mounting of tools in the tool holder. Besides adapters for all interfaces of INDEX and TRAUB machines, adapters for additional tooling systems are also available.

An integrated swivel mechanism allows for a particularly ergonomic work. The lock that can be operated without additional tools reliably prevents the tool holder from falling out during mounting.
